

Texas Wildlife

ANNUAL REPORT 2025

Texas Wildlife Association (TWA) turned 40 in 2025 and it was a transformational year for the organization in many ways. For over four decades now, the organization has worked to conserve our state's natural resources by protecting the rights of landowners and hunters, ensuring their ability to continue stewarding our state's wildlife and habitat long into the future.

In 2025, we continued to see strong performance in all three of our organizational pillars: Conservation Legacy, Hunting Heritage and Advocacy. Our education and hunting programs combined to impact more than 825,000 youth and adults through natural resource education programs and safe/educational hunting opportunities. On the Advocacy front, your volunteer leaders and staff continued to serve as a strong voice for science based natural resource policy and landowner/hunter rights in the halls of the Texas Capitol and in multiple regulatory forums.

The 40th Anniversary Convention provided a great opportunity to reflect on our organization's roots and build important resources and momentum for the future. The event saw strong attendance, record setting fundraising numbers, and several special events highlighted by a panel of 12 past presidents at our Saturday Awards Luncheon. TWA Co-Founder, Larry Weishuhn, was also recognized with the Ray Murski Friend of Wildlife Award, tying the perfect bow on a very special event.

Texas Wildlife Association Foundation (TWAF) enjoyed a strong year with three successful fundraising events, strong grant support and generous contributions through our annual End of Year appeal. The generosity of our TWAF donors directly drives the success of our educational and hunting programs, providing our staff with the resources to continue impacting more and more Texans each year.

As we look forward to 2026, we want to express our heartfelt thanks to all of the members, donors, volunteers, partners and friends that have kept the organization thriving for more than 40 years. We are proud of the accomplishments of the first 40 and are well prepared to take on the challenges of the future. 🌟

TEXAS WILDLIFE is published quarterly, in addition to an annual report, by the Texas Wildlife Association, 6644 FM 1102, New Braunfels, TX 78132. E-mail address: tw@texas-wildlife.org. POSTMASTER: Send address changes to Texas Wildlife Association, 6644 FM 1102, New Braunfels, TX 78132. The Texas Wildlife Association (TWA) was organized in 1985 for the purpose of serving as an advocate for the benefit of wildlife and for the rights of wildlife managers, landowners and hunters in educational, scientific, political, regulatory and legislative arenas. TEXAS WILDLIFE is the official TWA publication and has widespread circulation throughout Texas and the United States. All rights reserved. No parts of these publications may be reproduced or transmitted in any form or by any means without express written permission from the publisher. Copyrighted 2026 Texas Wildlife Association. Views expressed by contributors are not necessarily those of the Texas Wildlife Association. Similarities between the name Texas Wildlife Association and those of advertisers or state agencies are coincidental, and do not indicate mutual affiliation, unless clearly noted.

TWA MISSION

Serving Texas wildlife and its habitat, while protecting property rights, hunting heritage, and the conservation efforts of those who value and steward wildlife resources.

2025 OFFICERS

DENELL JACKSON, Director of Finance & Administration

Conservation Legacy

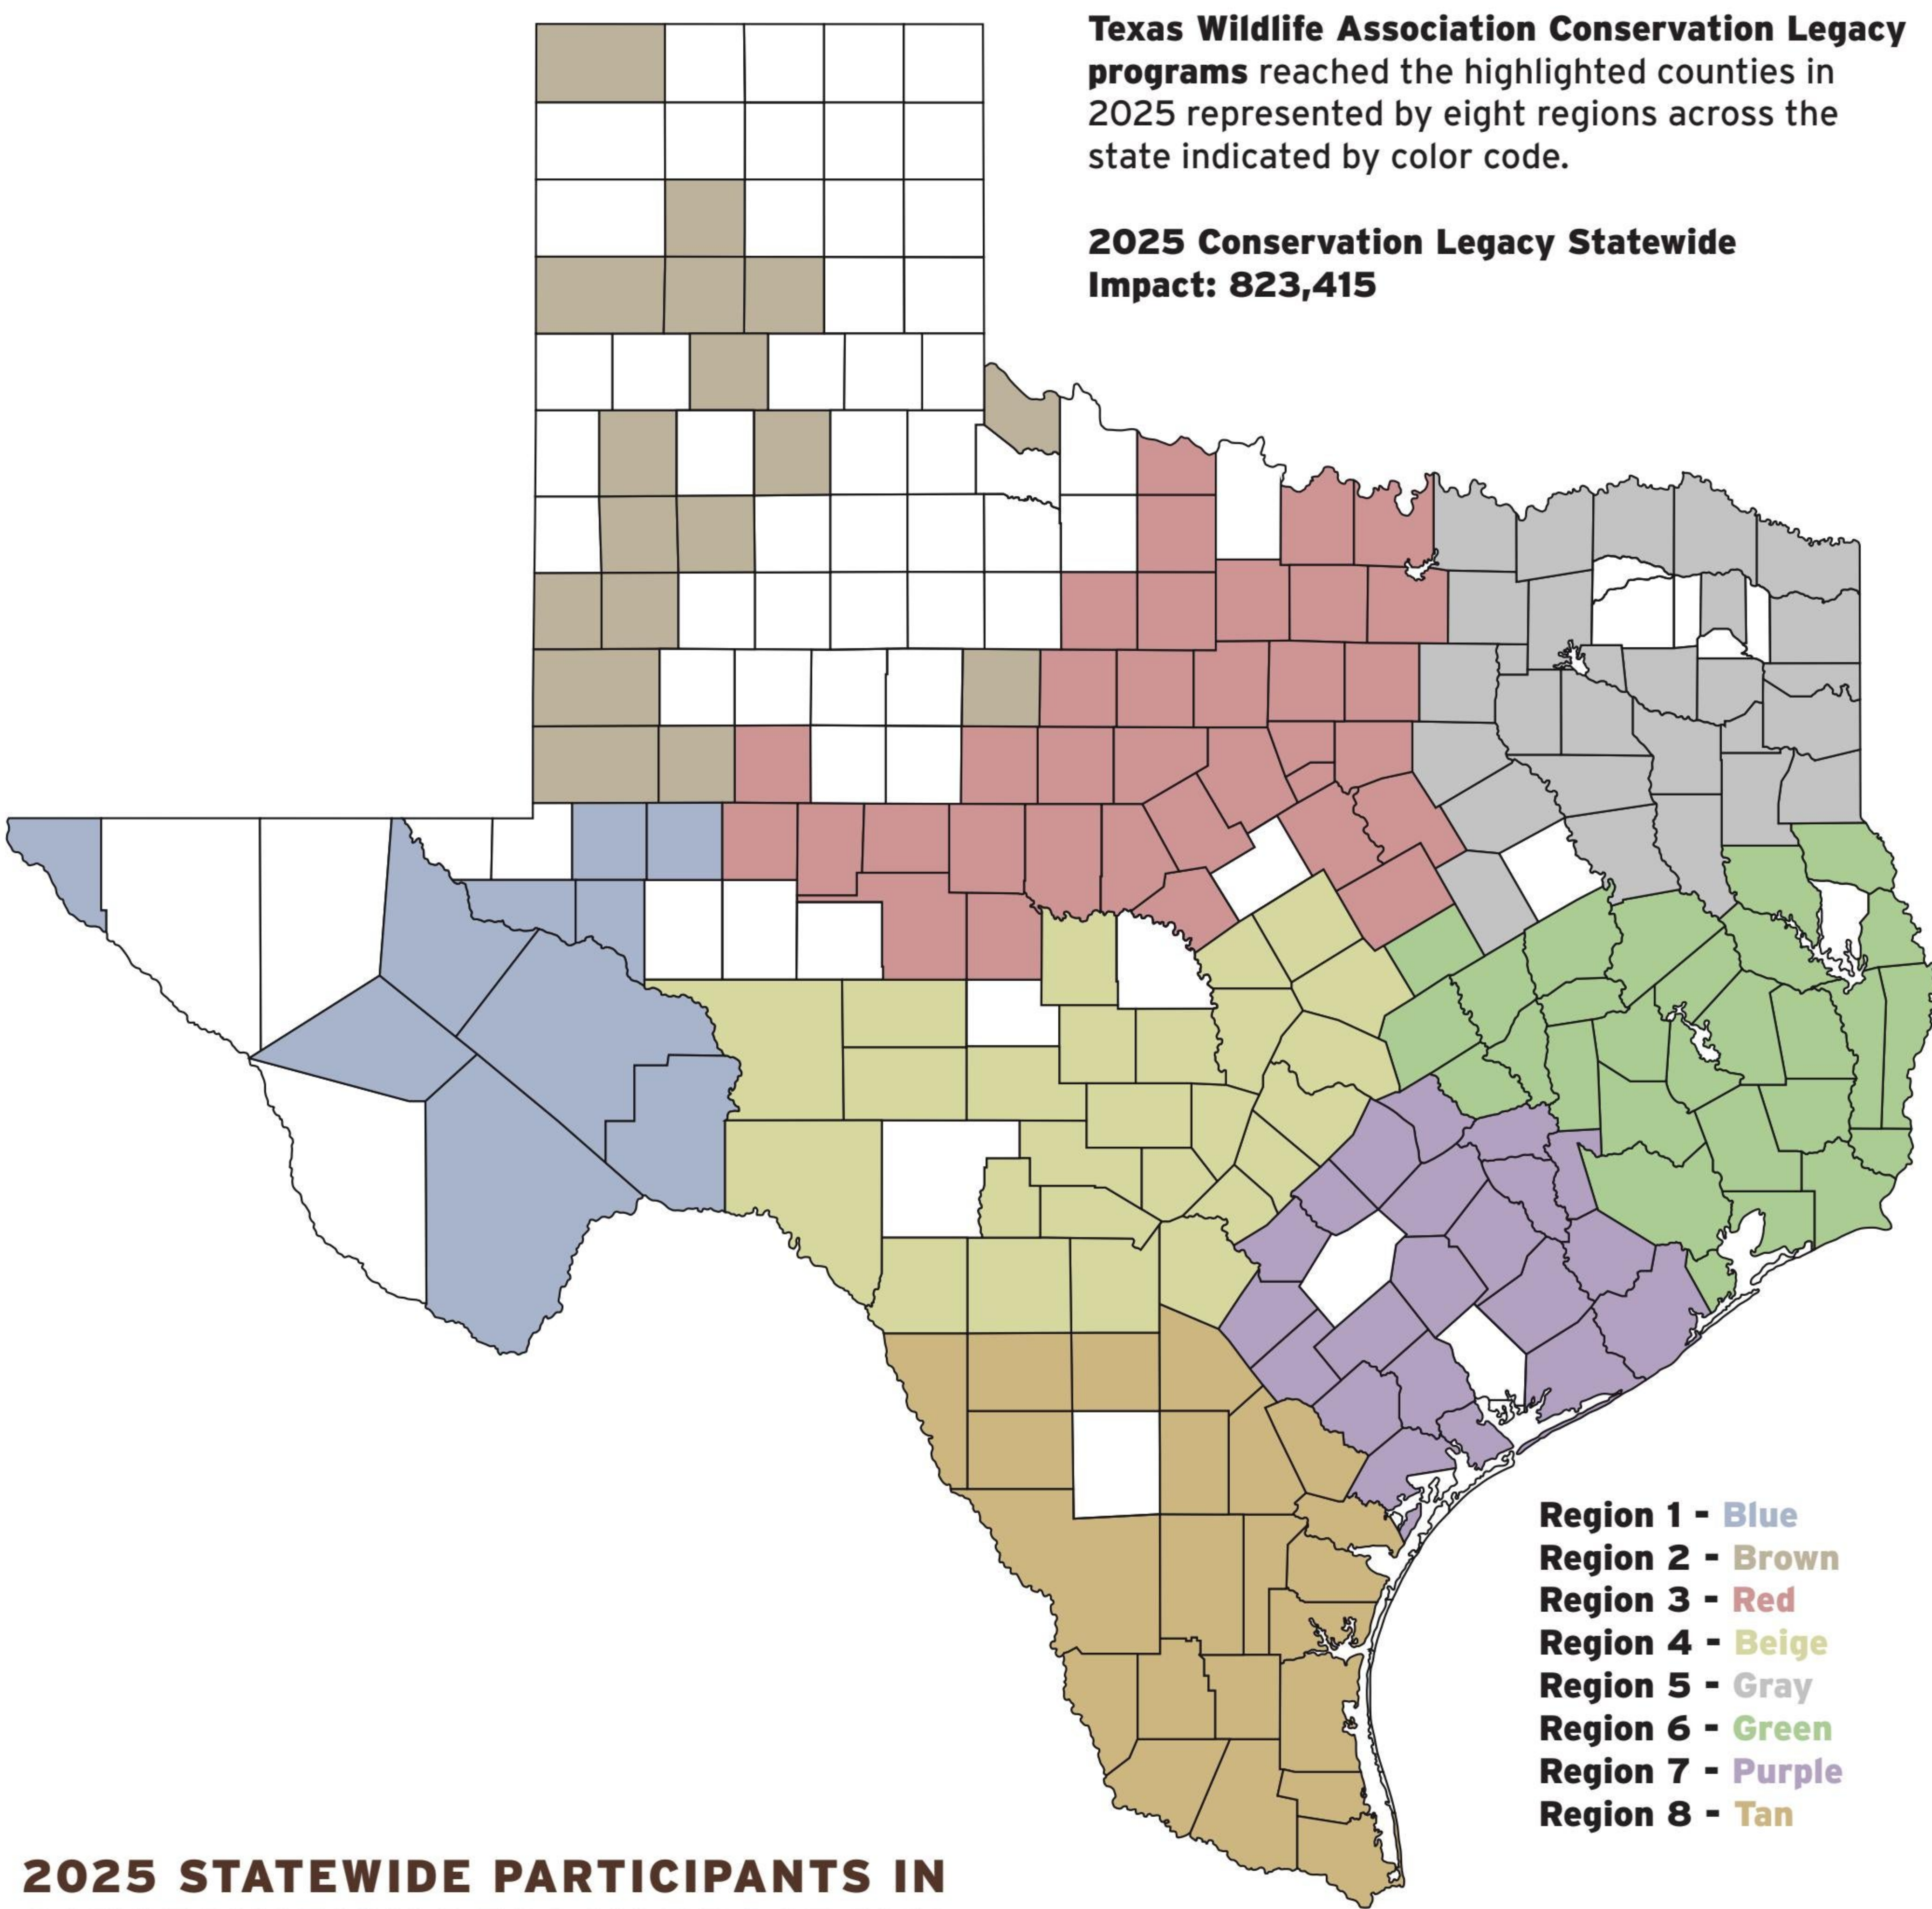

The Conservation Legacy team is dedicated to educating Texans of all ages and backgrounds about conservation issues and our wildlife resources.

YOUTH EDUCATION

The Youth Education programs of the Texas Wildlife Association are deployed across Texas by a team of 14 educators, along with two educators of the East Foundation.

The role of our 10 conservation educators is to collaborate with local teachers and students three days a week through Wildlife by Design classroom presentations, professional development, and hosting booths at regional and community events throughout the year.

2025 STATEWIDE PARTICIPANTS IN CONSERVATION LEGACY PROGRAMS

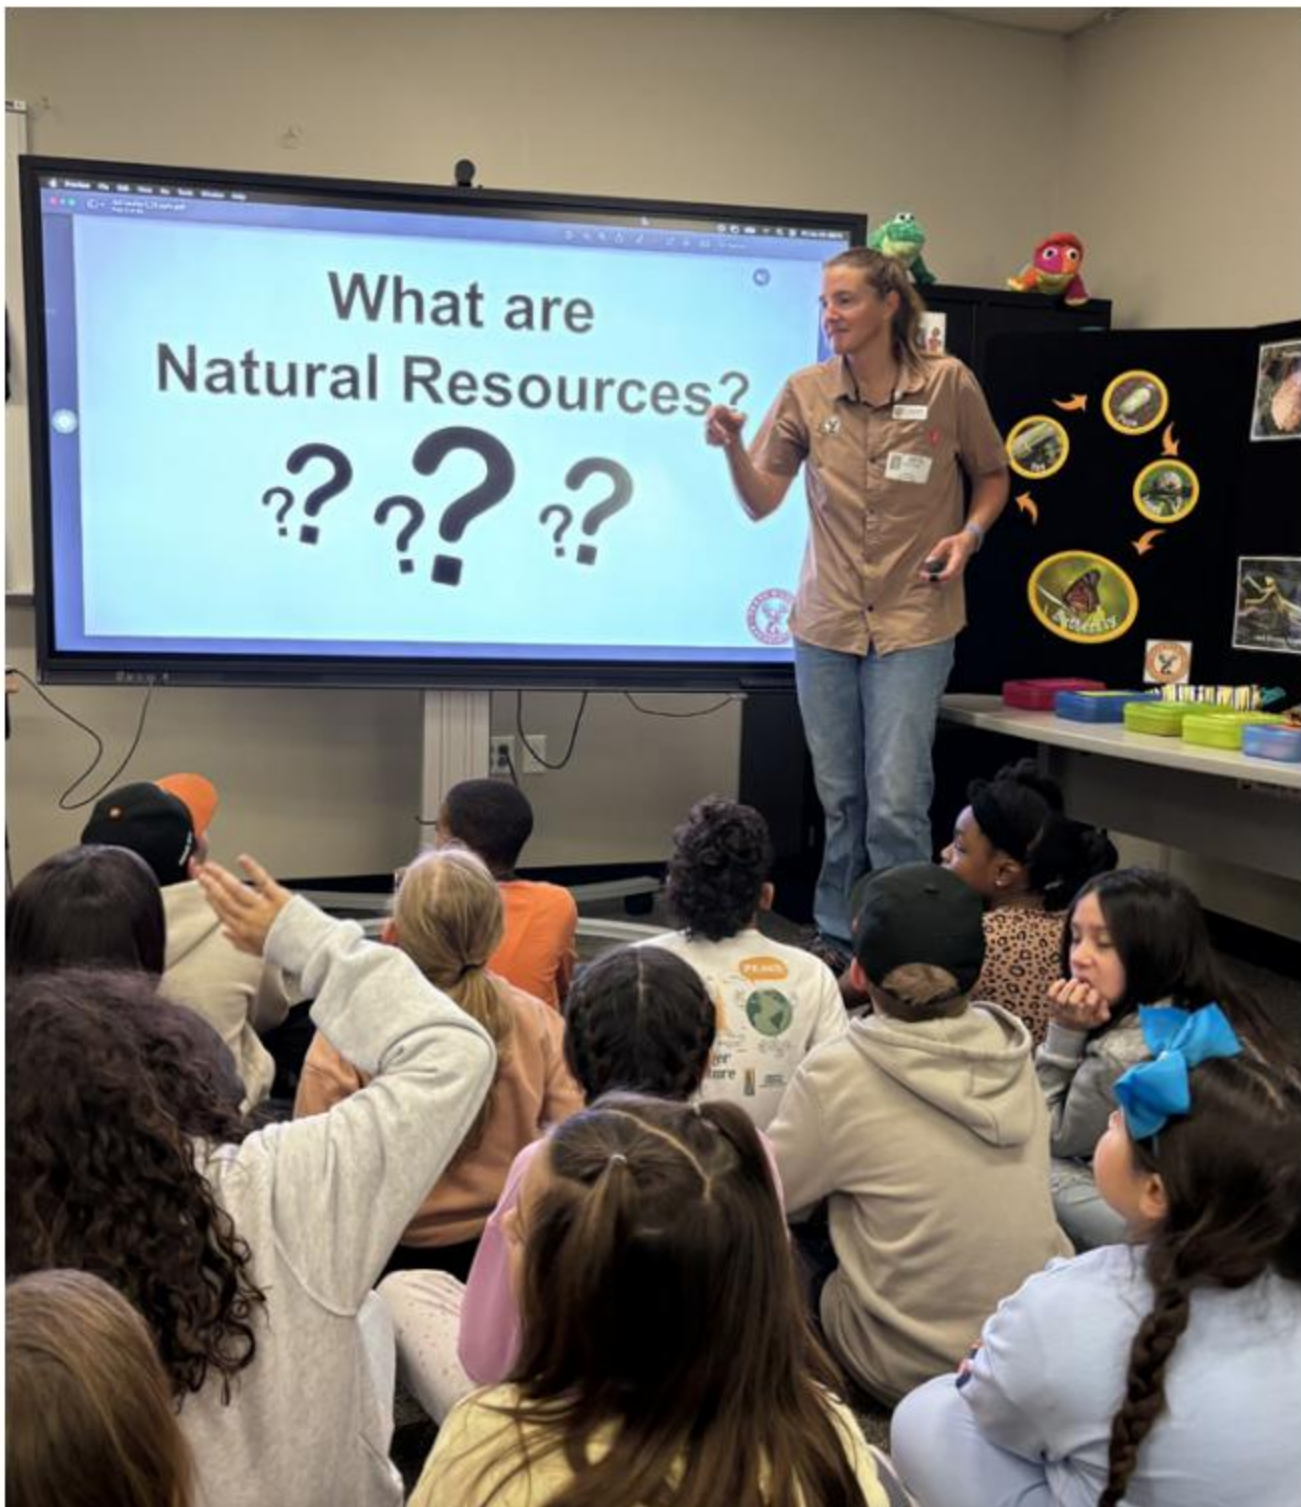

Distance Learning	35,776	Youth Education Partnered Curriculum	5,183
Discovery Trunks	224,190	Youth Education Workshops & Conferences	1,001
Wildlife by Design.....	104,928	Adult Education Workshops & Conferences.....	1,920
Critter Connections	422,679	Adult Education Wild at Work Webinars.....	13,351
Land, Water & Wildlife Expeditions	2,438	Public Events.....	11,949

Two of our conservation educator specialists split the state north and south to coordinate the Land, Water & Wildlife Expeditions Program which creates outdoor classrooms that offer anywhere from dozens to hundreds of students an engaging and hands-on field day on private properties, many of which are owned by TWA members.

Our third conservation education specialist works with our program assistant and curriculum specialist to develop *Critter Connections*, promote Distance Learning videos, ship Discovery Trunks to the far reaches of the state, and develop our TEKS-aligned lessons.

Several youth education programs experienced record-breaking impact in 2025. Over 100,000 students received hands-on, in-person Wildlife by Design presentations, Discovery Trunks were shipped to over 224,000 students, and more than 422,000 copies of *Critter Connections* were mailed.

The organization's youth education efforts impacted more than 795,000 young Texans in 2025!

ADULT EDUCATION

In 2025, TWA made efforts to ensure that landowner education programs were reaching audiences across the state and addressing the many evolving challenges that face property ownership and wildlife stewardship.

From Nacogdoches to Alpine, Kingsville to Abilene, TWA partnered with Plateau Land & Wildlife Management, the Texas Forestry Association, Rolling Plains Quail Research Foundation, Caesar Kleberg Wildlife Research Institute, Borderlands Research Institute, Texas Parks and Wildlife, Texas A&M AgriLife, Conservation Equity Partners and numerous others to help make our outreach events a success.

TWA's monthly Wild at Work webinars, hosted during the lunch hour, provided members and non-members alike free opportunities to deepen their knowledge base on a variety of wildlife and land conservation topics such as the importance of pollinators and pocket prairies, chemical applications for brush management, renewable energy siting, waterfowl migration and more. This online content was viewed by more than 13,000 in 2025 and is available on the TWA YouTube channel as well as TWA's new video resource library where each of our past recordings can now be found in a sortable database.

In addition to landowner workshops in Mason, Seguin and Nacogdoches, our Women of the Land program hosted a successful single day event at the Freeman Ranch in San Marcos that brought together 40 conservation-minded ladies to learn about how they can make a lasting and positive impact on their natural resources.

TWA was also an active partner in co-hosting the Rolling Plains Bobwhite Quail Symposium in Abilene and the Diversifying Land Use in the Trans-Pecos Conference. Staff presented at the Houston Rodeo Ranching & Wildlife Expo, guest lectured at Texas A&M and the Caesar Kleberg Wildlife Research Institute and contributed to the success of several other programs led by partners across the state.

All told, more than 15,000 adults were impacted through TWA's educational programming in the past year. 🌱

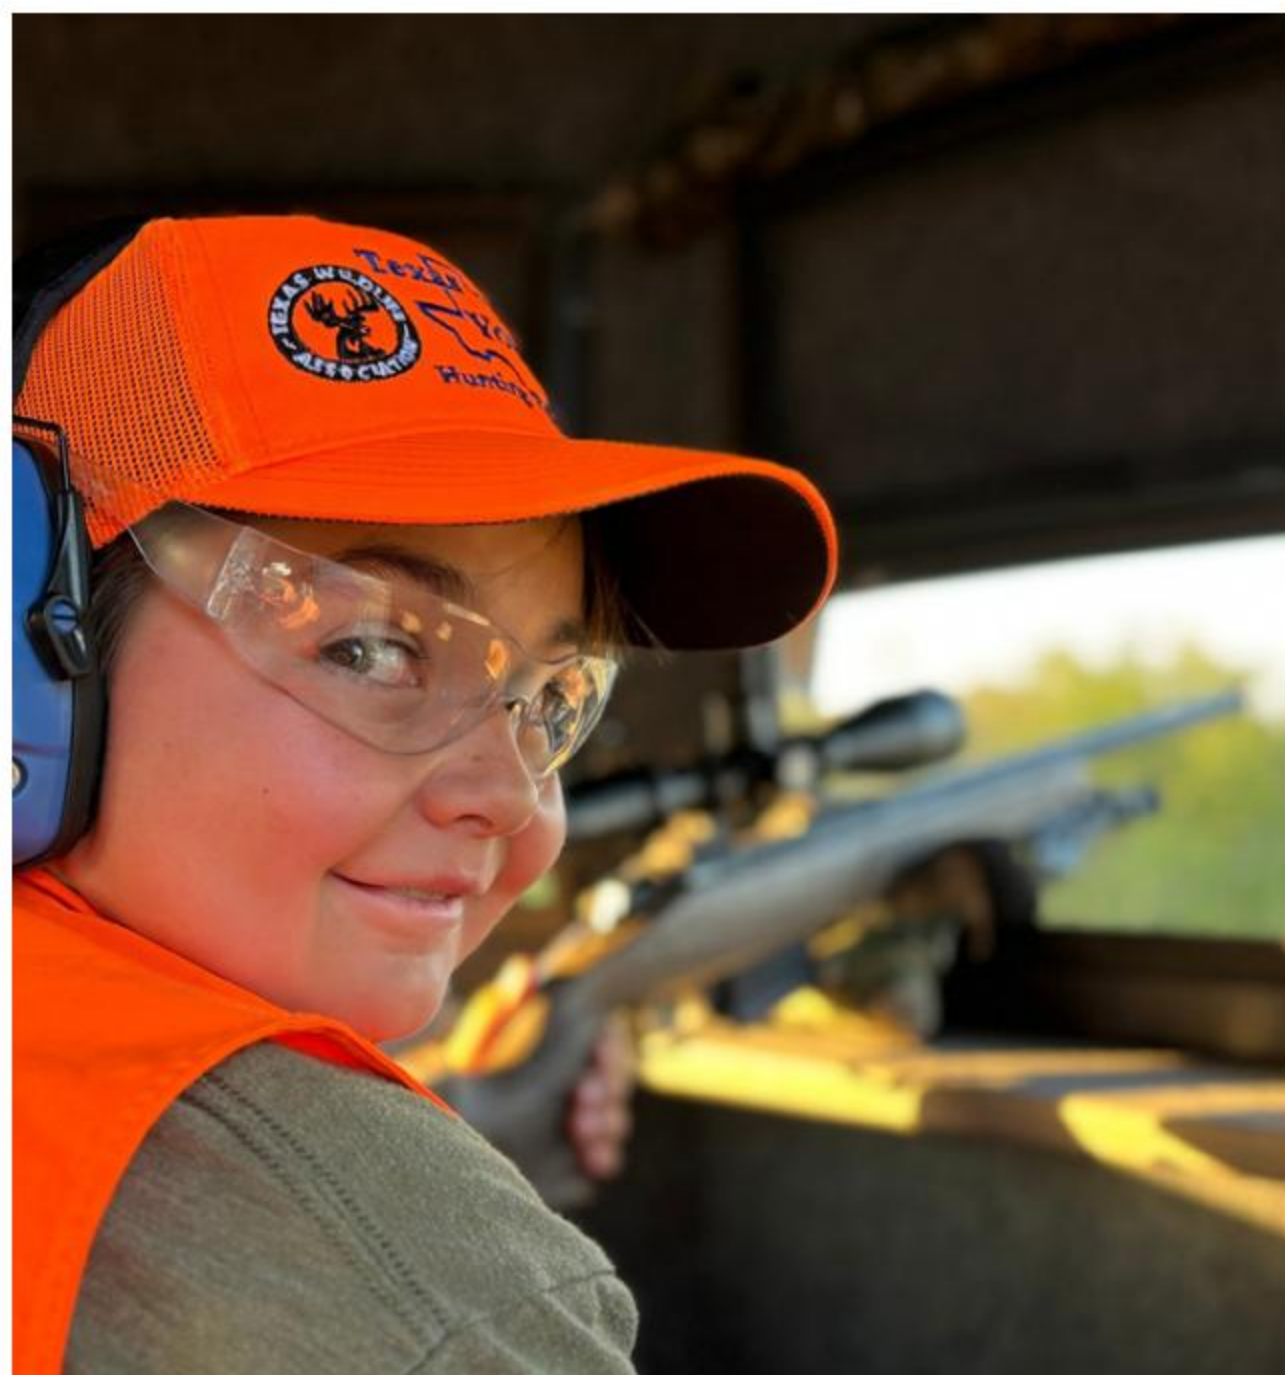

Hunting Heritage

TWA’s Hunting Heritage programs continue to lead the way when it comes to creating opportunities for youth and adult Texans to experience the hunting way of life in a safe and prescribed manner. The program also recognizes these same hunters and landowners for their successes.

2025-26 HUNTING HERITAGE IMPACT

Adult Learn to Hunt Program	Texas Youth Hunting Program	Texas Big Game Awards 2025
Hunts32	Hunts 245	Scored entries..... 609

Volunteers and mentors 203	Youth, parents and volunteers.3,684	Landowner recognition awards. 305
Total volunteer hours 8,120	Total volunteer hours 53,500	Texas Slam awards5

TEXAS YOUTH HUNTING PROGRAM

The Texas Youth Hunting Program (TYHP) offers children and teenagers hunting opportunities for native and exotic game thanks to private landowners who generously open their gates and host the hunts. While TWA oversees the program, TPWD serves as a vital collaborator. During the 2025 hunting season, 1,204 youth were drawn for 255 hunts.

With the addition of parents and volunteers, the total number of participants reached 3,684 for the TYHP hunts. Staff provides Huntmaster training during the offseason to ensure that plenty of volunteers are ready to guide and instruct young hunters during the fall, winter and spring hunting seasons.

TYHP was formed in 1996 in response to a declining number of youth hunters in the state. To date, TYHP has provided over 32,000 young Texans with safe and educational outdoor experiences while instilling an appreciation for the valuable role private landowners and hunters play in wildlife conservation.

ADULT LEARN TO HUNT PROGRAM

Texans with a desire to procure their own organic protein are major participants in the Adult Learn to Hunt Program (ALHP). This past season, 160 new hunters were ushered into the hunting brotherhood thanks to 32 offered hunts. Like our TYHP hunts, the success of this program hinges on private landowners who are willing to host hunts on their property as well as the 203 volunteers and mentors who logged over 8,120 hours. Harvest totals include 85 MLDP white-tailed does, one MLDP white-tailed buck, 51 non-MLDP white-tailed does, nine non-MLDP white-tailed bucks, six mule deer, seven javelina, six turkey, 13 feral hogs, five aoudad, four nilgai and one axis deer.

More than 800 adults applied for these mentored hunts which exemplifies the growing demand for adult Texans to connect with land and wildlife.

ALHP hosted an inaugural dove hunt and fundraiser in Moody. The event brought together over 100 individuals who have participated in ALHP as a hunter, mentor or volunteer for an afternoon of dove hunting, camaraderie and fundraising, ultimately netting the program approximately \$15,000.

The offseason remains busy with five training sessions planned, as well as skill-based education sessions focusing on firearms, optics and butchering. The program continues to host social gatherings to encourage community development among hunters and volunteers.

TEXAS BIG GAME AWARDS

Now in year 35, the Texas Big Game Awards (TBGA) recognizes first time harvests from youth and adults, as well as exceptional native Texas big game animals—and the land managers who produce them. More than 1,200 entries were submitted for 2024-25, including 609 scored entries, 290 first harvest and 330 in the youth division. Three hundred and five landowner recognition rewards were distributed, and five hunters earned Texas Slam honors. TWA is proud to partner with the Texas Parks & Wildlife Department in the TBGA to promote our strong Texas hunting heritage.

Hunters who participated in the 2024-25 TBGA were celebrated at one of three Regional Sportsmen's banquets over the summer. The 2025 banquet season began in New Braunfels and visited Lufkin, Kingsville, Amarillo, Victoria, Bryan and Abilene. There was a great turnout of awardees at our 40th annual TWA WildLife Convention in July 2025 where the top three in each category were awarded along with our five Texas Slam awardees.

Since the program's inception in 1991, TBGA has recognized over 54,000 first time hunters, youth hunters, experienced hunters and landowners thanks to generous support from sponsors such as Hixon Land and Cattle Company, Busch Light, Nyle Maxwell Family of Dealerships and Capital Farm Credit.

Additionally, TWA offers \$25,000 in TBGA scholarships to college students who major in agriculture or natural resource related majors. Ninety-eight students applied for the scholarship in spring 2025. TBGA scholarships are funded thanks to a donation from Carter's Country Outdoor Stores. 🌟

Texas Wildlife Association Foundation

The Texas Wildlife Association Foundation, Inc., promotes educational and informational activities in support of wildlife, habitat, and sound management. This programming includes science curriculum and classroom plans for elementary, middle and high school students, leadership camps, youth and adult hunting opportunities, and teacher training and adult education seminars, all of which are performed by the Texas Wildlife Association. 🌟

TWAF LEGACY SOCIETY

The TWAF Legacy Society continued to play an important role in 2025. The program allows donors to fund the TWAF endowment through various methods including testamentary bequests and other planned giving strategies. The Legacy Society recognizes and honors those donors who help protect the land, water and wildlife of Texas by contributing to the TWAF endowment fund in the amount of \$25,000 or greater. 🌟
